

Year: One

Term: Autumn 1

English

In English this half term we will be reading and retelling books by Oliver Jeffers. Our focus will be *Lost and Found*, a story in which a little boy finds a penguin. He decides to help the penguin and the story tells the story of their journey to the South Pole. We will learn the story and use it as a framework to create our own animal stories. The children will also learn about penguins and use the facts to create non-fiction texts about them.

Geography

Children will start to learn about the seven continents. We will identify seasonal and daily weather patterns in the United Kingdom and the location of hot and cold areas of the world in relation to the Equator and the North and South Poles. We will use basic geographical vocabulary to refer to key physical features.

Penguins, Possums and Pigs

This term, we will be learning about animals and their habitats. We will identify the seven continents and some animals which live there. We will learn about different types of animals and what they need to live and grow healthily.

Mathematics

This half term will be spent deepening the children's conceptual understanding of the place value numbers to 10. They will also be developing their mental strategies for adding and subtracting numbers.

Science

We will be exploring our local environment to explore and answer questions about animals and their habitats. We will learn about what animals need to live and grow and how animals can be kept as pets. We will visit Blackpool Zoo to observe animals. We will also learn about our own bodies and the importance of keeping healthy.

R.E

We will be listening to the Christian story of Creation, taking time to look at God's beautiful creation, writing prayers of thanks and praise. We will also listen to creation stories from other faiths.

We will also learn about Harvest all over the world and how to help those who don't have a good Harvest.
