

Year: One

Term: Spring 1

English

In English, we will be focusing on the text 'No-Bot the Robot with No Bottom.' We will begin by sequencing the story before describing the three settings that the main character travels too. We will innovate the story and create our own robots that will lose a body part. We will be consolidating our knowledge of -ed endings before introducing plural endings of -s and -es. Finally, we will explore the features of a letter and how to respond to questions before writing a letter to a Toy Maker.

DT

This half term we will be creating our own robots. We will create three designs and select our best design that could be used to help somebody. We will carry out tests to evaluate what materials will work best and the different ways we can cut and join them together.

Robots

This half term, we will be transforming into inventors. We will we be learning about different types of real robots and we will create our own.

Mathematics

This half term, we will be exploring 2D and 3D shapes. We will learn about some of their properties. We will be diving into numbers 1 to 10 and exploring number bonds through part-whole models. Finally, we will be introducing additive structures and how we can use a bar model to find missing parts.

Geography

In Geography, we are exploring 'What is the weather like here?' Initially, we will be exploring what countries form the United Kingdom and where we live within this. We will learn how to use compasses and why we use these. Throughout the unit, the will conduct a weather diary and we will monitor the change in weather from the morning to the afternoon. We will look for any weather patterns and how the weather types can inform us of the four different seasons.

RE

In RE, the children will be learning about My World, Jesus' World. We will be comparing what Jesus looked like and wore to ourselves, before comparing houses in Jerusalem to houses now. We will learn about the practises of Judaism, including the synagogue and the Jewish festival Passover.
