

Year: Three

Term: Spring 2

English

This term in English we will be using the Lancashire Talk Unit – Romans to read, write, act and explore aspects of Roman life including Julius Caesar, the Roman Army, Boudicca’s Rebellion in order to write an information booklet. We will also be learning and innovating a story about Boudicca.

Religious Education

This unit of work explores the themes of Joy and Sadness in the events of Easter. Children will explore feelings of sadness and joy in familiar stories and films and use their own knowledge of these concepts to identify and discuss them in different parts of the Easter story.

Science

In Science lessons children will investigate the force of magnetism and how magnets attract and repel. We will investigate how magnets behave on different surfaces and materials. We will also be visiting Eureka Science Museum

Why Did the Romans Invade Britain?

This term, we will be discovering why the Romans invaded Britain, how the Iron Age Celts reacted and finding out about the impact of the Roman invasion and settlement on Britain.

Mathematics

In Maths lessons children will learn how to add numbers using a column method. They will regroup ones and tens and use the method to solve problems. We will also be learning how to identify and measure right angles.

Design Technology

In Design Technology lessons we will be tasting (food tolerances allowing) rating, investigating, designing and creating our own pizzas in true Roman style!

- Key Vocabulary:**
- Roman
